Do not be afraid of viruses!
The high-speed and space-saved solution restores your Windows!

RestoreIT[®] 7

Do not be afraid of viruses! The high-speed and space-saved solution restores your Windows!

Based on FarStone's patented "Advanced System Restore " technology, RestoreIT[®] is a new, and powerful innovation designed to recover your entire PC in 2 minutes for an effortless recovery from any disaster. RestoreIT[®] enables you to instantly recover files, system configurations, and an operating system by literally taking a snapshot of your system.

Whether you've been hit with a virus, attacked by a hacker, had a system crash, or other unforeseen disasters, RestoreIT[®] allows you to go back in time to where your PC was working properly for quick, painless, and accurate data restoration. Even in the event of Windows "Blue Screen of Death", RestoreIT[®] 7 can save you and your PC instantly!

- ✓ 2 minutes restoration from virus attacks, spyware intrusions, or system crashes!
- ✓ Automatic & Continuous Data Protection!
- ✓ Restores even when Windows fails to start!
- ✓ Instant retrieval of deleted or overwritten files!
- ✓ Restore points use less than 1% of disk space compared to Windows System Restore!

Simple and Painless
One-button recovery restores system in 2 minutes

Pre-Windows Recovery
RestoreIT will run even when Windows won't boot

Automatic, Ongoing Protection
Creates restore points every hour, every day, every week, or any interval of your choice
