

TotalRecovery® 8 Tools

The image shows a product box for 'TotalRecovery® Tools'. The box is primarily yellow and orange. At the top left is the Farstone logo. At the top right, a dark blue oval contains the text 'Self Bootable'. The main title 'TotalRecovery® Tools' is in large white letters, with the subtitle 'Super Data Recovery Tools with USB' below it. A list of features is presented with green checkmarks: 'Integrated Windows 7 64 Bit PE', 'Bakup & Recovery of GPT/UEFI Disks', 'Complete Backup (Imaging)', 'Military Standard Data Shredder', 'Windows Password Recovery', and 'Hard Drive Cloning'. Below the list is an image of a silver USB drive with 'TotalRecovery® Tools' and 'www.farstone.com' printed on it. At the bottom left is the website 'www.farstone.com'. At the bottom right is a green leaf graphic with the text 'Go Green!' and a red ribbon banner that says 'No Installation'.

Reboot PC

Recovery

NEW

Powerful 64 bit PE support

Adopt 64 bit PE, so support more drivers. Improve the stability for backup and restore your computer in Recovery Manager(PE).

NEW

GPT disk support

To high-capacity hard disk, Super Tools back up & recover any single volume beyond 2.1 TB easily

Recover Windows, Data, Applications and Everything with Disk Imaging!

When you come across computer loss or hard drive crash, Total Recovery Tools can restore your files, application and Windows system to your original computer or a new computer.

Rescue Data from a Damaged PC!

Boot your system with TotalRecovery Tools' bootable CD or USB, you will be able to explorer your files and rescue your precious photos, emails and data from a non-bootable PC system.

Windows Password Reset for Dummies

Total Recovery Tools will recover Windows password in one click if you have lost or forgotten your Windows login password. Total Recovery Tools' Password Reset feature supports multiple operating systems, including Windows 7, Vista, XP, 2000, 2003 & 2008 Server and Active Directory domain controllers.

Destroy Data with Military Standard Shredder

TotalRecovery Tools' military standard US DoD 5220.22-M compliant data shredder can completely wipe out all financial data, secret email and other sensitive files on a hard disk. It's unique "shred-from-outside-Windows" technology securely clear everything from hard drive preventing the possibilities of hackers or any interceptions to shredding operating

Migrate Windows to a Bigger Hard Drive!

Instead of spending hours or days to migrate your data and Windows to a newly purchased hard drive, it takes only minutes for TotalRecovery Tools to completely move everything including files, photos, music, application settings, and Windows.
